## Summary

**Enthusiastic Flutter developer with a strong foundation in Dart, Firebase, REST API integration, and state management (Provider/GetX). Skilled in building responsive UI, clean code architecture, and cross-platform mobile apps for Android & iOS. Passionate about continuous learning and eager to contribute to impactful projects.**

---

## Education

**Chhagalnaiya Government Pilot High School**

4.75

**2016-2021**

SSC

**Feni Polytechnic Institute**

**June 2021- Running**

Diploma in Computer Science

---

## Projects

**Task Manager**

**May 2025**

Developed an interactive web-based task manager enabling users to create, edit, delete, and filter tasks by status and priority. Implemented dynamic UI updates and local storage integration to enhance usability.

**Medicare App**

**March 2025**

Built a cross-platform healthcare app with OTP authentication, Firebase FireStore for real-time medication tracking, and integrated video consultation functionality. Designed a custom UI using Poppins font and theming for a user-friendly experience.

**Crafty Bay (e-commerce app)**

**July 2025**

Designed and implemented a responsive e-commerce webpage featuring product listings, navigation, and styled layouts. Focused on UI/UX optimization and clean code structure for better performance.

**CRUD App**

**March 2025**

Implemented a full CRUD application in Flutter integrating RESTful APIs for creating, reading, updating, and deleting records with proper state management.
